

Name _____

Unit 2: Fitness Training and Programming for Health, Sport and Well-being

Part B - The screening process

Personalised Learning Checklist Unit 2

Use this checklist before each assessment to focus your revision, and after to check the effectiveness of your revision

Unit 2 - Part A - How this would look in September to help you track progress									
TOPIC	UNIT TEST			PPE			JAN EXAM		
	R	A	G	R	A	G	R	A	G
A1: Positive Lifestyle factors									
A2: Negative Lifestyle Factors									
A3: Lifestyle Modification Techniques									

Assessment Rubric

To use it, simply see the description for each marking point, and how much it is worth. You will be graded on this booklet based on an overall score - But each section will be scored. Here is a quick copy of that rubric:

Recap task		
1. 3 correct answers	2. 3-5 correct answer	3. 5-7 correct answers
Task 1 - Survey		
0. Incomplete Survey	1. Completed survey	
Task 2		
0. No work	1.1 lifestyle factor identified and explained how it was identified	2.1 lifestyle factor identified and explained how it was identified. Plus an observation of what could happen to client if this continued.
Task 3		
0. No work	1. Identified correct data	2. Identified the scale of the data and what it means

Recap Task

Based on the negative lifestyle factors we became aware of last time, can you match the following lifestyle factors or lifestyle factors consequences by their general meaning? **To do this, link the shapes so that they are in line with the correct meaning.**

Stress

People leading active lives are less likely to die early or suffer from chronic diseases.

Hypertension

Someone who does less than 30 minutes of exercise per week

Lung Disease

Can force immune system to work without enough nutritional support

Diet

The body produces a surge of hormones (adrenaline) when faced with a stressful situation

Cancer

A psychological and mental response to your environment

Sedentary Lifestyle

Smokers are likely to suffer more respiratory tract infections than non smokers

Physical Activity

A group of diseases characterised by uncontrollable growth of abnormal cells that can spread through the body

Screening Process - Task 1

The Screening process is a vital part of the course, and the exam. It gives us an opportunity to look at the client, look at the numbers and see what the problem is.

This introduction will look at embracing your 'deductive powers' to try and solve a few personal mysteries.

Before you get your client to do any Physical activity in the personal training world, you would get them to complete a PAR-Q, A physical activity readiness questionnaire.

These can be broken down into 2 parts, a lifestyle questionnaire and a physical activity review.

Complete the [Google survey](#) to introduce you to the PAR-Q format. This survey can be found in the link above. Or it will be sent to all emails. This will be graded as complete = 1, incomplete = 0.

		No contraindication according to physician
1. Has your doctor ever said that you have a heart condition and recommended physical activity only under medical supervision?	<input type="radio"/> Yes <input type="radio"/> No	<input type="radio"/>
2. In the past month, have you had pain in your chest when you were physically inactive or active?.....	<input type="radio"/> Yes <input type="radio"/> No	<input type="radio"/>
3. Do you have problems in breathing when you are physically inactive or active?	<input type="radio"/> Yes <input type="radio"/> No	<input type="radio"/>
4. Did you ever fall down because of dizziness or have you ever lost consciousness?	<input type="radio"/> Yes <input type="radio"/> No	<input type="radio"/>
5. Do you have bone or joint problems that could be made worse when being physically active?	<input type="radio"/> Yes <input type="radio"/> No	<input type="radio"/>
6. Has a doctor ever prescribed you drugs for high blood pressure or heart or breathing problems?	<input type="radio"/> Yes <input type="radio"/> No	<input type="radio"/>
7. Do you not feeling well because of a temporary illness such as cold or fever?	<input type="radio"/> Yes <input type="radio"/> No	<input type="radio"/>
8. Are you or may you be pregnant?	<input type="radio"/> Yes <input type="radio"/> No	<input type="radio"/>
9. Do you know of any other reason why you should not do physical activity?	<input type="radio"/> Yes <input type="radio"/> No	<input type="radio"/>

Screening Process - Task 2

Now the screening process doesn't just mean we ask broad quantitative and qualitative questions. We need to get into the real 'numbers' of our client.

Let's look at one of the exam clients now:

Section 1: Personal details

Name: Christine Timms

Address: 32 The Avenue
Smalltown
The City

Home telephone: 01234 667455

Mobile telephone: 07153 644888

Email: timms09@email.com

Age: 48

Please answer the following questions.

Occupation

1. What is your occupation?
A personal assistant
2. How many hours do you work each day?
9 hours per day
3. How far do you live from your work?
2.5 miles
4. How do you travel to work?
Car
5. How active would you say your job was?
Not very active

Section 2: Activity levels

1. How many times a week do you take part in physical activity?
None
2. What type of activity/exercise do you mainly take part in?
N/A

Screening Process - Task 2

Please answer the following questions.

1. How many units of alcohol do you usually drink in a week? **25**
2. Do you smoke? **No** If yes, how many cigarettes a day? **N/A**
3. Do you experience stress on a daily basis? **Yes**
If yes, what causes you stress (if you know)?
Increasing workload and changes in personal life
4. On average, how many hours sleep do you get per night? **5**

Task 2 - Write a summary of what you see as potential negative and positive lifestyle factors. Use the rubric to help you form an answer to get the best possible grade.

Screening Process - Task 3

Now you may not have been able to identify all the negative lifestyle factors in the previous task, this is because you have not been taught what to look out for, you have worked on a 'detective's hunch'. But now let me guide you in one way on how to spot the dangers/ negative lifestyle factors.

See below, this is another part of our clients PAR-Q, but it also has a lot of data rich components.

Section 5: Health monitoring tests

Test results

Test	Result
Blood pressure	120/80 mmHg
Resting heart rate	85 bpm
Body mass index	16.5
Waist-to-hip ratio	0.70
Weight	47.7 kg
Height	1.7 m

Data Summary:

Now look at the table below, what do you notice about one of the test scores above? **Circle the correct data below by using the shape tool above**, remember, what his her age? Go back two pages detective! **Write in the data summary box of your findings below**

WOMENS RESTING HEART RATE CHART

AGE	18 -25	26 -35	36 -45	46 - 55	56 -65	65+
ATHLETE	54-60	54-59	54-59	54-60	54-59	54-59
